

EDUCATION**Sunway University****Sep 2025 – Present**

- Bachelor of Software Engineering (Hons)
- Current CGPA: 4.00/4.00
- Related Coursework: Object-Oriented Programming Fundamentals, Database Fundamentals, Web Fundamentals, Operating System Fundamentals, Networking Principles, Programming Principles, Computer Organizations, Computer Mathematics

Sunway College Kuala Lumpur**August 2024 – Aug 2025**

- Foundation in Arts (FIA)
- CGPA: 3.94/4.00

PROJECT EXPERIENCE**Pet Grooming Services Web Design****May 2026 – Aug 2026**

- Developed a full-stack pet grooming service website with interactive features and user-friendly interfaces.
- Applied HTML, CSS (Flexbox, Grid, animations, :root variables), JavaScript, debugging techniques, and Local Storage for data persistence.

Retail Inventory & Order Management System**May 2026 – Aug 2026**

- Led a team to develop an inventory and order management system for managing products, stock levels, and customer orders.
- Applied Java OOP principles including Encapsulation, Inheritance, Polymorphism, Abstraction, and modular class design.

Warehouse Logistics System**May 2026 – Aug 2026**

- Developed a warehouse logistics database system to manage inventory, suppliers, warehouse operations, and product distribution.
- Applied SQL skills including table creation, constraints (Primary Key, Foreign Key, CHECK), and database normalization.

Python-Powered Student Grading System**Oct 2025 – Dec 2025**

- Designed a student grading system to manage student records, assessment results, grade calculation, and class performance summaries.
- Applied Python programming concepts including functions, file handling, and data structures.

Snake Game**Sep 2025 – Oct 2025**

- Independently developed a Snake Game with real-time gameplay, keyboard controls, collision detection, and score tracking.
- Applied Java AWT, event-driven programming, GUI components, and game development concepts.

Car Rental System**Jan 2025 – April 2025**

- Developed a Java-based car rental system to manage vehicle rentals, customer records, and rental transactions.
- Applied Java fundamentals, OOP concepts, JOptionPane GUI, and basic user interface design.

CERTIFICATE

- CCNAv7: Introduction to Networks – Cisco Networking Academy
- AI-Driven Data Modelling (AIM) Programme – Sunway University

TENICAL SKILLS

- Programming Languages: Python, Java, JavaScript, HTML, CSS, SQL
- IT/Software: Microsoft Office, Visual Code, Tableau, MySQL, Oracle Apex

SOFT SKILLS

- Languages: English (Fluent), Mandarin (Native), Malay (Fluent), Hokkien (Native), Thai (Beginner)
